

Georgia Electronic Conviction Processing System (GECPS)

COURT BULLETIN

This bulletin will be updated by the Georgia Department of Driver Services (DDS). Our goal is to strengthen the communication between our business partners by disseminating legislative updates and other valuable information in a timely manner.

LEGISLATIVE UPDATES

[2015 Legislation](#)

[2014 Legislation](#)

[2011 Legislation](#)

GECPS

- **What is GECPS?**

GECPS is a standardized and secure method to report GA Reportable Violation Codes to DDS according to HB1253.

- **GECPS Online Account**

The online account allows GECPS users to update contact information, review outstanding errors and access documents uploaded by DDS.

ERROR HIGHLIGHTS

- **2878:** Failure to Appear (FTA) release does not match any FTA on record for this customer
- **Resolution:** Trial date and legal code submitted on withdrawal release should match the original FTA sent in on the record. Trial date equals FTA date for court.
- **Example 1:** The customer failed to appear for court on 4/15/2015. The customer goes to court to pay and requests a new court date. The FTA release should be sent to DDS with the trial date of 4/15/2015.
- **Example 2:** The customer failed to appear on a 40-6-186-Racing. The customer goes to court and the charge is amended to speeding 40-6-181. The FTA release will still need to be sent to DDS with the original charge to clear the FTA. Then, the court can submit the conviction with the amended charge.
